Glossary of Sea Terms

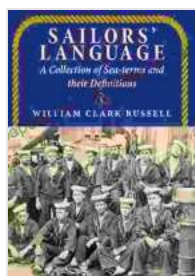

- **Aft:** Towards the back of the boat.

- **Aground:** When a boat is stuck on the bottom of the sea or river.
- **Anchor:** A heavy object used to hold a boat in place in the water.
- **Ballast:** Heavy material placed in the bottom of a boat to keep it stable.
- **Beam:** The width of a boat.
- **Bilge:** The lowest part of a boat's hull.
- **Bow:** The front of a boat.
- **Bowsprit:** A spar that extends from the bow of a boat to support sails.
- **Bulkhead:** A wall that divides a boat into compartments.
- **Capsize:** When a boat turns over.
- **Cleat:** A fitting on a boat used to tie lines.
- **Companionway:** The entrance to a boat's cabin.
- **Compass:** A device used to determine direction.
- **Davits:** Arms that are used to lift a boat's dinghy.
- **Deck:** The floor of a boat.
- **Dinghy:** A small boat that is carried on a larger boat.
- **Doldrums:** An area near the equator where there is little wind.
- **Draft:** The depth of water that a boat needs to float.
- **Fender:** A cushion that is placed between boats to prevent damage.
- **Freeboard:** The height of a boat's side above the waterline.
- **Galley:** The kitchen on a boat.

- **Gangway:** A plank that is used to walk between boats.
- **Gunwale:** The upper edge of a boat's side.

With this comprehensive glossary of seafaring terms at your fingertips, you're now equipped to navigate the nautical lexicon with ease. Whether you're charting a course across the vast oceans or simply engaging in seafaring conversations, these terms will serve as your trusty seafaring companions.

So hoist the sails of your linguistic knowledge, embark on this maritime adventure, and become a master of nautical communication. May your voyages be filled with clear skies and following winds!
